

# NOVA NEWS

December 2016

## Excitement is Growing

In 1992 Sunil Agrawal started NOVA consultants. As we near 2017 we feel a sense of accomplishment and excitement that we are going to be celebrating our 25<sup>th</sup> anniversary. It's been a great 25 years, and we're looking forward to many more.

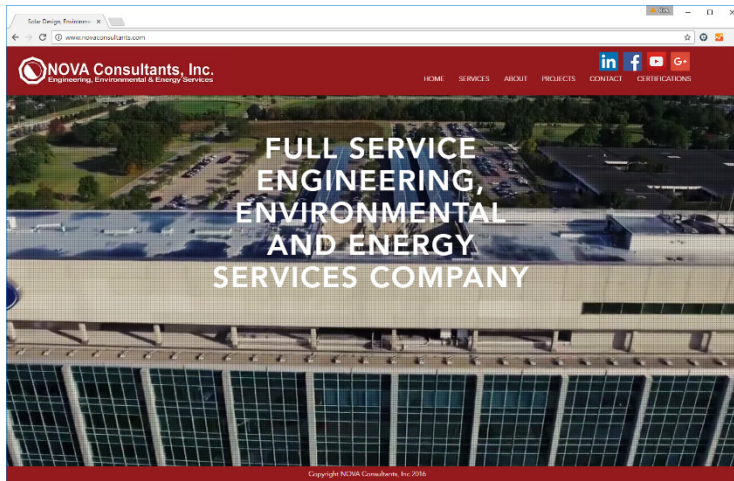

## NOVA Launches New Aerial Drone Service

AERIAL SURVEY, VIDEO, AND PHOTOGRAPHY

NOVA again is evolving as times change. We now are offering Aerial Surveying, Photography, and Videography services. This service evolved from a passion of our employees for flying their personal drones to take aerial photos and videos of some of our completed projects.

This passion has grown and we now have FAA certified pilots and FAA registered drones, and are looking forward to augmenting our O&M services with drone based inspection and Infrared analysis.

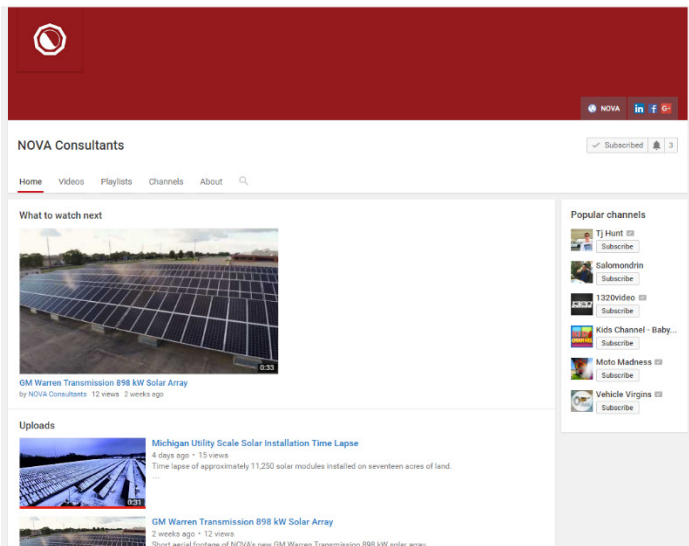

## Updated Website

NOVA launched its new website in October, and in the first month we have seen a 15 percent increase in traffic to our website. We are constantly adding new content and pages and are committed to maintaining the new website.

We have been known to launch new pages and content from our social media sites such as LinkedIn and Facebook before we make it accessible on the main website.

Please visit regularly and keep a look-out for new content.

## NOVA Launches YouTube Channel

As an off-shoot of our new aerial services NOVA has launched a YouTube channel to showcase our videos. We are having a good time creating videos for our channel, so please subscribe and look for new videos often.
